

March 15, 1976

It has to do with three hundred full time equivalent people including an \$80,000 workload increase request and I think Senator Stull introduced that workload increase, if anybody has a question on that. 43 county judges, 7 associate...actually 95 associate judges according to this, 122 support personnel and the case load in the last two years has increased more than 30%. Then Program 399 has to do with court reporters and there are 49 full time equivalent and I think, Mr. President, unless there are questions, I will just proceed. Is that satisfactory?

PRESIDENT: That is fine, Senator Marvel.

SENATOR MARVEL: Program 06...

PRESIDENT: Excuse me, Senator Marvel, Senator Duis asks recognition.

SENATOR DUIS: Senator Marvel, is there any increase for salary in here for the judges of any of the courts?

SENATOR MARVEL: Yes, that is what Senator Stull's amendment is, I believe. There are increases, yes. In direct response to your question, LB 141 required salary increases which were given which is a part of the increase in the amendments over the original bill. Does that answer your question? No, I think if you have questions on this. Are you talking about amendments or questions? I think it would be easier to take the questions up as we went along. Do you have one on the first one.

SENATOR BARNETT: Yes. May I. Senator Marvel, with relation to what you just talked about on increases in the Supreme Court judges, is this superceding the bill we had out of Judiciary Committee that allowed for the increases in all the judges or is this in lieu of or in addition to?

SENATOR MARVEL: It is my understanding that we are talking about LB 141 which designates the fact that when there is a judge who gets an increase, they all get an increase.

SENATOR BARNETT: This was from a year ago, then, in other words?

SENATOR MARVEL: Yes, sir.

SENATOR BARNETT: Okay, thank you, sir.

SENATOR MARVEL: If there are no other questions, Mr. President, I am going to go on to the next.

PRESIDENT: All right.

SENATOR MARVEL: The next item has to do with the District Courts, Standing Committee amendment #2. We have two programs, the judges' expenses and that is Program 392 which has to do with training and related expenses incurred
